

SNOA Cancellation Policy

- 1. No compensation is given to officials if 24 hours' notice is given prior to the scheduled start time.**
- 2. If the game is canceled less than 24 hours before start time (unless due to weather), the official will receive one game fee, and will it be the highest-level game scheduled.**
- 3. If the canceled game is an out of town assignment and is less than 24 hours prior to the scheduled start time, one game fee will be paid but no travel pay is given if the officials have not left for their out of town site yet.**
- 4. If officials arrive to an out of town site and the game has been canceled for whatever the circumstance, one game fee is paid (if a doubleheader was scheduled) and the travel fee will be paid to the driver and all rider(s).**
- 5. In bad weather situations, if the game is not cancelled within 90 minutes of the official start time, the official will receive one game fee. If more than one game was scheduled, only one game fee will be paid, and it will be the highest-level game scheduled. If the game is cancelled due to bad weather, and it is outside of the 90-minute window, no compensation will be given to the official. The only exception would be an out of town assignment in which the officials have already left for their game. The officials will be paid one game fee plus travel fees.**
- 6. Once the scheduled game has begun, the official will be compensated for the game regardless if it is completed or not.**
- 7. The only exception that an official would not be compensated for a canceled game would be if that official is then re-scheduled on that same day to officiate at a different location/game.**
