

Don May

I have been an SNOA member for 25years. I currently work three sports (volleyball, basketball S&T and track & field) and worked baseball for many years before moving to track & field. Have also worked as an assignor, individual sport's board member and served on the Board of Control previously. I'm a retired Army officer and retired Senior Management level with the Federal Government. I am seeking a return to the Board of Control and believe that my experience both from my professional career and especially from within SNOA will be of great benefit to the Board's operations.
